PROFILE

Dynamic Computer Science Engineering student with a robust self-learning mind set and a keen focus on problem-solving. Successfully transitioned from Mechanical Engineering to Computer Science, leveraging industry experience gained at Escorts Kubota to enhance technical skills. Proficient in Java, data structures and algorithms, Spring Boot, MySQL, and REST API development, with a commitment to continuous practice in DSA and backend development. Seeking a software engineering internship to solidify foundational software engineering principles.

EXPERIENCE

DIPLOMA ENGINEER TRAINEE (DET)

Escorts Kubota

- Worked in an industrial environment with exposure to production and engineering processes.
- Developed discipline, teamwork, analytical thinking, and problem-solving skills.
- Gained professional work experience before transitioning into software engineering.
- Adapted quickly to technical workflows and team-based responsibilities.

EDUCATION

Bachelor of Technology (B.Tech) Computer Science Engineering

Uttaranchal Institute of Technology

CGPA: 8.87 / 10

09/2027
Dehradun

Diploma in Mechanical Engineering

Govt. Polytechnic College Dehradun

- Graduated with strong academic performance.
- 9.0 CGPA

09/2022
Dehradun

SKILLS

Programming Languages

SQL, Java, C/C++ (Basic)

Computer Science Fundamentals

Object-Oriented Programming, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

Backend Development

REST APIs, JDBC, Spring Boot, CRUD Operations, MySQL

Tools & Platforms

IntelliJ IDEA, Postman, Git & GitHub, VS Code

SOFT SKILLS

- Problem Solving
- Analytical Thinking
- Adaptability & Continuous Learning
- Self-Motivation

PROBLEM SOLVING & DSA

- Solved 300+ problems on LeetCode.
- Practicing arrays, recursion, linked lists, stacks, queues, trees, hashing, binary search, and dynamic programming.
- Focused on improving coding & problem-solving skills.
